SOLUZIONI FOODSERVICE

The Induction Chef Deep Frying Pan by Pentole Agnelli represents the perfect blend of tradition and innovation in professional cooking. Made of 3 mm bilaminate Aluinox, it combines a pure aluminum core for excellent thermal conductivity with a satin-finish ferritic steel outer layer, ensuring maximum efficiency on induction hobs.

The Shark Skin internal coating (PTFE + PEEK) is one of the most advanced in its category:

- up to 300% thicker than a standard sprayed non-stick, for unparalleled longevity
- excellent resistance to impacts, abrasions and thermal shocks
- uniform and fat-free cooking, for light and healthy cuisine
- easy to clean, dishwasher safe

This tall flared pan is ideal for:

- quick and professional pasta sauces
- opening and cooking mussels
- dynamic preparations, where the power of the flame and thermal reactivity make the difference

Directions for use:

- avoid sharp or abrasive tools
- prefer delicate sponges for cleaning
- make the most of it for quick and high-intensity cooking

Technical specifications:

- Material: Aluinox bilaminate
- Internal lining: Shark Skin (PTFE + PEEK)
- Bottom: 3 mm, universal for induction
- Handle: ergonomic stainless steel
- Dishwasher safe
- Certifications: PFOA free, lead and cadmium free
