CODICE: 048100511812

MARCA: DICK

The DICK cattle slaughter gun is a professional tool designed for butchers, farms, and slaughterhouses requiring reliability, robustness, and maximum operational safety. Crafted from high-quality metal and featuring components designed for intensive use, the gun stands out for its safety ring device located above the lever, which prevents accidental activation of the mechanism when a round is loaded in the chamber. This feature makes it particularly suitable for professional settings where safety is a priority.

#### CHARACTERISTICS:

- Professional product for controlled stunning/killing in the slaughterhouse.
- Rugged metal construction for heavy duty use.
- Caliber: 38 mm
- Ring-shaped safety catch above the lever to prevent accidental activation.
- Compatible with specific blank cartridges/ammunition (check correct caliber).
- Made in Germany / production to professional standards.

The gun comes in a box with:

- cleaning brush;
- use and maintenance manual (it is important to keep it and follow the manufacturer's instructions);

#### Safety and Compliance Warnings:

Sale and use reserved for professional operators. This equipment is designed exclusively for stunning animals for slaughter and for emergency interventions as required by current legislation. Before use, consult the manufacturer's manual and comply with local regulations regarding the use of slaughter equipment; use trained and suitable personnel. (Detailed operating instructions are not included in the product data sheet for safety reasons.)
