SOLUZIONI FOODSERVICE

The Elettrobar FAST 440D is a compact, reliable and high-performance professional glasswasher, designed to guarantee impeccable washing results with low consumption.

Ideal for bars, pubs, cafes and restaurants, it combines robust construction, ease of use and ease of maintenance thanks to CLEAN CONSTRUCTION technology and the MEC4 user interface.

Construction features

- AISI 304 stainless steel structure for maximum hygiene and durability.
- Double-walled construction (partially double sides) for noise reduction and heat dispersion.
- Tank with welded bottom that eliminates dirt accumulation points.
- Large surface area integral composite filter, easily removable for cleaning.
- Printed and rounded basket guides, designed to facilitate the positioning of the baskets and improve water flow.
- "Easy fit" wash and rinse arms with quick release and fully inspectable for immediate maintenance.

MEC4 User Interface

- Control panel with 3 robust mechanical buttons (on/off, cycle start/stop, program selection).
- LED display that shows the washing and rinsing temperature in real time.
- Color-coded Polnt indicator light to easily monitor machine status.
- Provision for Wi-Fi connection via optional kit.
- Up to 6 selectable washing programs for different operating needs.

Automatic dosing

- Integrated peristaltic dispensers for detergent and rinse aid, with electronic regulation for precise and constant dosing.
- Reduced waste and increased washing efficiency.

Technical data

- Professional glass washer
- Dimensions (LxWxH) 43.6 × 53.5 × 67 cm
- Basket 39 × 39 cm
- Single-phase 230 V power supply
- Power consumption 3.2 kW
- Construction material Stainless steel
- Integrated detergent and rinse aid dispensers
- Control type Mechanical with LED display
- Quick-release wash/rinse arms
- Washing programs Up to 6

Perfect for bars, wine bars, pubs, restaurants and venues with high glass consumption. Its compact size (only 43.6 cm wide) allows for installation even in small spaces, without sacrificing power and reliability.
