SOLUZIONI FOODSERVICE

Discover the 20 cm 5-ply stainless steel pan from the AFFINITY collection, designed to ensure professional performance even in everyday cooking. Thanks to its multi-ply technology, heat is distributed quickly and evenly, ensuring flawless results for every type of preparation: from slow-cooking sauces to perfectly searing meats.

The ceramic nonstick coating allows for healthier cooking, with less fat, and quick and easy cleanup. The 14.6 cm induction base ensures stability and compatibility with all modern hobs.

Versatile and resistant: ideal on all hobs and in the oven

Compatible with gas, induction, glass ceramic and electric, the AFFINITY pan can also be used in the oven, to finish cooking or gratinate your favourite dishes.

The multilayer structure offers excellent thermal inertia, maintaining a constant temperature and ensuring even cooking.

- Hand washing is recommended to preserve the ceramic coating over time.

Generous size for 2 portions

With its 20 cm diameter, this pan is perfect for preparing hearty meals for two people, without sacrificing efficiency. The large surface area allows you to cook multiple ingredients at once, while the ergonomic and refined design ensures comfort and style with every use.

A high-quality tool, designed to last and enhance your cooking experience day after day.
