SOLUZIONI FOODSERVICE

The Agnelli Nitrided Iron Frying Pan is the ideal choice for those seeking professional performance, durability, and contemporary style in the kitchen. Crafted from high-quality nitrided iron, it ensures excellent heat distribution and even cooking, perfect for searing, sautéing, and enhancing every daily dish. The nitriding treatment makes the surface even more resistant to wear and high temperatures, improving durability and performance during intensive use. The modern design is enhanced by the elegant black PVD stainless steel handle, adding character and sophistication to the kitchen. Solid, reliable, and high-performance, this Agnelli pan is designed for those seeking a versatile tool that combines aesthetics and functionality in a single product.
