SOLUZIONI FOODSERVICE

Versatile, elegant and designed for healthy cooking: the Agnelli 1907 High Flared Frying Pan in 2ply Alu-Inox offers high performance combined with a refined design, ideal for both everyday use and more elaborate preparations.

The mirror-finished aluminum body ensures even heat distribution, while the PFAS-free ceramic non-stick coating allows for fat-free cooking, preserving the health benefits of food. The tall, flared shape is perfect for sautéing, stirring, and browning with ease and control.

The single, nickel-free stainless steel handle, crafted from micro-cast steel, ensures an ergonomic and secure grip. The distinctive aesthetic of the Baldassarre Agnelli 1907 line also makes this pan ideal for direct table service, enhancing every dish with understated elegance.

MAIN FEATURES:

- Diameter: 32 cm
