SOLUZIONI FOODSERVICE

The Wire Glass Basket is the ideal solution for safe and efficient glass washing in professional environments such as restaurants, bars, hotels, and canteens. Designed for stability, hygiene, and durability, this basket is made of Rilsan-coated carbon steel, a material that ensures high corrosion resistance and a long service life even with intensive use.

Thanks to the integrated locking tabs, the plastic cups stay perfectly in place during washing, preventing knocks or falls and ensuring impeccable results. The five internal rows allow for neat and functional storage, optimizing space in the professional dishwasher.

TECHNICAL CHARACTERISTICS

- Dimensions: 500 × 500 × 260 mm
- Material: Rilsan coated carbon steel (rust-proof and scratch-proof)
- Number of files: 5
- Sturdy and stable metal wire structure
- Locking flaps for maximum safety of plastic cups during washing

MAIN ADVANTAGES

- Maximum protection: the fins prevent movement or breakage of the glasses.
- high resistance: the Rilsan coating protects against humidity, detergents and heat.
- Functional design: allows for even washing and quick drying.
- Universal compatibility: suitable for most 50x50cm professional dishwashers.

IDEAL FOR

- Restaurants, bars, canteens and Ho.Re.Ca. facilities.
- Safe washing and storage of glasses of various sizes.
- Those looking for quality, durability, and practicality in a single product.
