SOLUZIONI FOODSERVICE

Create a visually striking table setting with the "Slide" collection of round ivory porcelain plates, designed by Hiroshi Tsunoda.

Crafted from high-quality porcelain, these plates combine durability and refinement, meeting the demands of busy restaurant environments without sacrificing elegant design.

The sculptural lines and rounded contours enhance every plating, creating extraordinary presentations. The glossy, enameled finish offers a flawless appearance, is easy to clean, and resists temperature fluctuations, making the plates perfect for both hot and cold dishes.

Versatile and contemporary, the Slide collection adapts effortlessly to both casual and formal settings, from gourmet restaurants to outdoor buffets. Its modern design creates intriguing visual effects when paired with food, evoking a sense of lightness and suspension, for a dining experience that blends aesthetics and functionality.
