SOLUZIONI FOODSERVICE

Keep your hobs looking like new with SpidoClean, the official Spidocook cleaner developed and tested specifically for cleaning SpidoGlass glass-ceramic hobs.

Thanks to its specific formula, SpidoClean easily removes cooking residues, grease and encrustations, ensuring hygiene, shine and maximum performance over time.

Main features

- Specific formula for glass ceramic – Professional cleaner designed for SpidoGlass hobs, effective on both hobs and steel structures.
- Quick and deep cleaning – In combination with the scraper supplied with the plates, it allows for quick and safe removal of residues without scratching the surface.
- Maximum hygiene and long life – Daily use of SpidoClean keeps the straightener always ready for use, preserving its performance and durability over time.
- Versatile and safe – Can be used not only on SpidoGlass plates, but on any glass-ceramic or stainless steel surface.
- Easy to use – Simply spray the cleaner onto the cold surface, wait a few moments and remove with the scraper or a soft cloth.

Why choose SpidoClean

Proper cleaning of glass-ceramic hobs is essential to maintain the efficiency of professional equipment, prevent clogging of drains, and ensure consistently uniform and safe cooking.

With SpidoClean, just a few steps at the end of the day are enough to obtain a perfectly clean, sanitized and ready-to-use plate.

Ideal for

- SpidoGlass Plates
- Glass ceramic hobs of any brand
- Stainless steel structures and surfaces
