SOLUZIONI FOODSERVICE

Professional stackable tray, made of resistant polypropylene, ideal for intensive use in the mass catering sector.

Designed to ensure practicality, sturdiness and hygiene, it is perfect for canteens, self-service restaurants, schools, hospitals and hospitality facilities.

The solid surface ensures a stable hold of plates and glasses, while the stackable design allows for space saving and efficient management during serving and storage.

Easy to clean and resistant to daily wear and tear, it represents a functional and long-lasting solution for high-traffic environments.

MAIN FEATURES:

- Dimensions: 47.5 x 35.5 cm
- Material: Polypropylene
- Stackable and space-saving
- Ideal for professional and collective use
