MARCA: **AGNELLI**

Essential, resistant and elegant: the 5 mm Agnelli 1907 Glass Lid is the ideal accessory to complete the pots and pans of the line, improving cooking control without sacrificing style.

Made of 5mm tempered glass, it allows you to easily monitor your preparations while maintaining heat and humidity inside. The nickel-free stainless steel knob, solid and functional, ensures a secure and durable grip.

An integral part of the Agnelli 1907 Aluminium line with induction base by Pentole Agnelli, this lid is designed for versatile use on different heat sources, adapting perfectly to a modern and professional kitchen.

Main features:

- Material: Tempered glass
- Glass thickness: 5 mm
- Handle: 1 nickel-free stainless steel knob
- Line: Agnelli 1907
- Compatible with gas, electric, radiant and induction hobs
- Ideal for controlling cooking while maintaining heat and humidity

An essential accessory, designed to complement every cooking tool in the 1907 line with functionality and elegance.
