SOLUZIONI FOODSERVICE

F300 - Alkaline detergent with special additives for use in glasswashers and dishwashers.

Recommended for all types of glasses, even those with decorations. Prevents streaks and corrosion, and can also be used for dishwashing. Helps maintain the foam formation of beverages like beer.

RECOMMENDED DOSAGE: 2 - 4 ml/l

B100N - Neutral rinse aid, universal use. For glasswashers, dishwashers, and utensil washers.

Recommended for all types of dishes. With the correct dosage and rinse temperature, streak-free drying is achieved.

RECOMMENDED DOSAGE: 0.1 - 0.4 ml/l
