Marecos Series 600 Vertical Freezer – Mod. AP 600 N PO

SOLUZIONI FOODSERVICE

The Marecos AP 600 N PO upright freezer from the 600 Series is designed to ensure high freezing performance in professional environments, offering large capacity, robustness, and reliability. Ideal for restaurants, professional kitchens, and food processing facilities, it is the perfect solution for the safe storage of large quantities of frozen products.

With a white painted steel exterior and a thermoformed interior, it ensures durability and easy maintenance. The 567-liter capacity and GN 2/1 configuration allow for organized and efficient management of interior space.

The static refrigeration system maintains stable and controlled temperatures between -16°C and -22°C , while manual defrosting ensures simplicity and long-term reliability. Digital control allows for precise adjustment, supported by visual and audible alarm systems (temperature, open door, and min/max thresholds) for maximum operational safety.

The interior layout is designed for maximum practicality, with 14 baskets and 6 fixed shelves, ideal for organizing products. The reversible, self-closing door and lock complete a product designed for intensive and professional use.
