SOLUZIONI FOODSERVICE

Precision, convenience and control always at your fingertips

The HENDI kitchen timer is the ideal tool for those who want to manage cooking and preparation times with maximum precision and simplicity. Compact, functional, and with a modern design, it is designed to fit perfectly into any environment, from home to professional kitchens.

Crafted with a durable ABS housing, this timer combines strength and lightweight design. Thanks to its foldable stand, hanging hole, and convenient built-in magnet on the back, it can be easily positioned anywhere: on metal surfaces, walls, or countertops, ensuring maximum visibility and accessibility.

Equipped with two independent timers, it allows you to monitor multiple preparations simultaneously, making it perfect for those who manage complex recipes or multitask in the kitchen. The memory function allows you to save your favorite settings for each timer and recall them with a simple touch, optimizing time and simplifying daily use.

The timer offers three alarm modes—silent, moderate, and loud—to suit any need and environment. When the set time expires, a red indicator light flashes in all modes, while a beep also sounds in the moderate and loud modes. For added convenience, the alarm automatically turns off after one minute.

With its down-to-the-second accuracy and the ability to set times up to 100 minutes, this timer ensures precise control for any preparation. It includes both a countdown and count-up function, offering maximum flexibility of use.

Compact yet extremely versatile, the HENDI timer is the perfect companion for improving organization, efficiency and results in the kitchen.
