SOLUZIONI FOODSERVICE

The Yarai frosted mixing glass is a professional tool designed for bartenders, mixologists, and cocktail enthusiasts who want to combine elegance, practicality, and precision in their drink preparation. Crafted from thick glass with the iconic Japanese Yarai technique, it's a must-have accessory behind any modern bar. The frosted design lends a refined and contemporary look, while the Japanese-style geometric engraving ensures a secure grip while mixing. Ideal for preparing stirred cocktails such as Negronis, Martinis, Manhattans, and Old Fashioneds, it allows ingredients to be chilled and mixed evenly without altering their aromatic structure. The thick glass construction ensures strength, stability, and durability during daily professional use. The integrated pouring spout facilitates precise and clean service, preventing drips during pouring. Available in two capacities, 500 ml and 750 ml, to adapt to the different operational needs of cocktail bars, lounge bars, hotels, restaurants, and professional venues.

FEATURES: - Available capacity: 500 ml - Material: frosted glass - Processing: Japanese Yarai cut - Glass thickness: 5 mm - Professional design for mixing and blending cocktails - Pouring spout for precise service - Ideal for professional bartenders and home bartenders
