SOLUZIONI FOODSERVICE

The timeless trend of dried fruit in pastry making meets technological innovation with the professional pistachio-shaped single-portion kit from Silikomart. This complete 6-cavity single-portion kit has been designed down to the smallest detail to allow you to create incredibly realistic three-dimensional desserts. A perfect blend of modern aesthetics, generous volume, and technical functionality, it's ideal for enhancing your contemporary display cases or presenting a memorable, high-end pastry dessert, incredibly easy to unmold and guaranteed to impress. A complete kit: 3D mold and custom cutter. The kit goes beyond the mold alone, offering an integrated, professional solution designed to optimize and speed up production times in the lab: - The 3D silicone mold: Featuring a revolutionary, patented internal border that rounds the base of the dessert during unmold. This completely eliminates clean cuts and sharp edges, resulting in a pistachio with a perfect, soft, and realistic three-dimensional shape. - ABS cutters: An exclusive shaped pastry cutter that allows you to create perfect, pinpoint-precise bases in shortcrust pastry or crispy pastry, or internal inserts that adapt precisely to the shape of the single portion. Professional performance from freezer to oven. Made entirely of the highest-quality 100% platinum liquid silicone, the mold guarantees high-level performance at every stage of processing: - For semifreddo, mousse, and inserts: It withstands the most extreme temperatures of the blast chiller. The extraordinary flexibility of the material ensures smooth and clean demoulding, preserving the characteristic surface of the pistachio. - For baked preparations: Thanks to excellent thermal stability, it is ideal for baking cakes, biscuits, or soft bases to be frosted or decorated with velvet spray for a super-realistic effect. - Totally certified safety: The mold is 100% safe for contact with food, certified BPA-free and PFAS-free, does not alter flavors, and is dishwasher-safe to withstand the intense workloads of the laboratory. Technical Data Sheet and Dimensions - Line: Silikomart Professional - Model: Pistachio Kit (Single-Portion Pistachio) - Kit contents: 1 silicone mold + 1 ABS cutter - Number of cavities: 6 - Single cavity dimensions: 99 x 56 mm | Height 40 mm - Single cavity volume: 120 ml - Total volume: 720 ml - Mold thermal resistance: From -60°C to +230°C - Compatibility (mold): Suitable for oven, microwave, blast chiller, freezer and dishwasher.
