

8-CUP PROFESSIONAL SILICONE COFFEE MOULD 5.8 x 7.8 x 4 cm

Silikomart 3D Coffee Bean Silicone Mold Kit (8 Cavities) with Cutter

SOLUZIONI FOODSERVICE

Bring the excellence of international pastry making into your kitchen with the professional kit for single-portion coffee bean desserts, created by Silikomart in exclusive collaboration with renowned Pastry Chef Tristan Rousselot. This complete kit has been meticulously designed to allow you to create incredibly realistic three-dimensional desserts. A perfect combination of modern aesthetics and technical functionality, it's ideal for enhancing your display case with elegant single-portion desserts with impeccable geometric shapes. A complete kit: 3D mold and custom cutter. The kit goes beyond the mold alone, offering an integrated, professional solution to optimize production times:

- The 3D silicone mold: Featuring the revolutionary patented internal border of the 3Design line. This special curvature rounds the base of your creations, eliminating sharp edges, resulting in a coffee bean with a perfect, soft, and realistic three-dimensional volume.
- The ABS cutter: An exclusive shaped pastry cutter that allows you to cut out shortcrust pastry or crispy pastry bases with pinpoint precision, or internal inserts that adapt perfectly to the shape of the single portion. Professional performance from freezer to oven. Made entirely of 100% platinum liquid silicone, this mold guarantees high-level performance in both professional laboratories and home bakeries:
- For semifreddo, mousse, and inserts: Withstands the most extreme temperatures of the blast chiller. The material's extreme flexibility ensures smooth and clean demoulding, preserving the characteristic central grain of the coffee bean intact.
- For baked preparations: Thanks to excellent thermal stability, it is perfect for baking biscuits, cakes, or soft bases for frosting.
- Total certified safety: The mold is 100% safe for contact with food, certified BPA-free and PFAS-free, does not alter flavors, and is dishwasher-safe to withstand intensive workloads.

Technical Data Sheet and Dimensions - Designer: Tristan Rousselot - Line: Silikomart Professional - Model: Coffee Bean Kit (Single-Portion Coffee Bean) - Kit contents: 1 silicone mold + 1 ABS cutter - Number of cavities: 8 - Single cavity dimensions: 58 x 78 mm | Height 40 mm - Single cavity volume: 110 ml - Total volume: 880 ml - Mold thermal resistance: From -60°C to +230°C - Compatibility (mold): Suitable for oven, microwave, blast chiller, freezer and dishwasher.
