Silikomart 3D "Pistachio" Silicone Mold Kit (12 Cavities) with Cutter

SOLUZIONI FOODSERVICE

The trend of dried fruit in pastry making meets technological innovation with the professional pistachio-shaped miniature kit from Silikomart. This complete 12-cavity miniature kit has been designed down to the smallest detail to allow you to create incredibly realistic three-dimensional desserts. A perfect blend of modern aesthetics and technical functionality, it's ideal for enhancing your buffets, catering services, or contemporary display cases with an elegant three-dimensional geometric shape that's easy to make and sure to make a statement. A complete kit: 3D mold and custom cutter. The kit goes beyond the mold alone, offering an integrated, professional solution designed to optimize and speed up production times in the lab:

- The 3D silicone mold: Featuring a revolutionary, patented internal border that rounds the base of the dessert during demoulding. This completely eliminates clean cuts and sharp edges, resulting in a pistachio with a perfect, soft, and realistic three-dimensional shape.
- The ABS cutter: An exclusive shaped pastry cutter that allows you to create perfect, pinpoint bases in shortcrust pastry or crispy pastry, or internal inserts that adapt perfectly to the shape of the mignon. Professional performance from freezer to oven. Made entirely of 100% high-quality platinum liquid silicone, the mold guarantees high-level performance at every stage of preparation:
- For semifreddo, mousse, and mini-inserts: Withstands the most rigid temperatures of the blast chiller. The extraordinary flexibility of the material ensures smooth and clean demoulding, preserving the characteristic surface of the pistachio.
- For baked preparations: Thanks to excellent thermal stability, it is ideal for baking small cakes, biscuits, or soft bases to be frosted or decorated with velvet spray.

- Total certified safety: The mold is 100% safe for contact with food, certified BPA-free and PFAS-free, does not alter flavors, and is dishwasher-safe to withstand the intense workloads of the laboratory.

Technical Data Sheet and Dimensions - Line: Silikomart Professional - Model: Kit Pistachio (Mignon Pistachio) - Kit contents: 1 silicone mold + 1 ABS cutter - Number of cavities: 12 - Single cavity dimensions: 62 x 35 mm | Height 25 mm - Single cavity volume: 30 ml - Total volume: 360 ml - Mold thermal resistance: From -60°C to +230°C - Compatibility (mold): Suitable for oven, microwave, blast chiller, freezer and dishwasher.
