

**5cm Professional Silicone Apple, Cherry & Peach
Mold, 6x5.5cm diameter**

Silikomart 3D Apple, Cherry & Peach Single-Portion Silicone Fruit Mold Kit (5 Cavities)

SOLUZIONI FOODSERVICE

Discover the 3D Fruits line by Silikomart Professional and bring the new frontier of three-dimensional fruity single-portion desserts into your kitchen. Fresh, juicy, and irresistibly tempting, the apple, cherry, and peach shapes come together in a single, versatile 5-cavity professional solution. This complete kit was created for pastry chefs who want to set no creative limits and amaze their customers with realistic single-portion fruit compositions, perfect for enhancing modern display cases and high-end plated desserts. Stability and 3D realism: the kit with plastic support. The kit is designed down to the smallest detail to ensure smooth and efficient work in the kitchen and includes: - The 3D silicone mold: Featuring a special internal border, a revolutionary patented curvature that rounds the base of your creations during demoulding. This eliminates sharp edges, creating a flawless, spherical, and smooth three-dimensional effect, ready for mirror glazes or velvet sprays. - The rigid plastic support: A practical, coordinated tray that supports the silicone mold, ensuring maximum stability when filling the cavities and making it easy to move to the blast chiller or freezer without the risk of warping or spilling. Professional performance from the blast chiller to the oven. Made of 100% professional-grade platinum liquid silicone, the mold guarantees excellent performance and durability in every situation: - For semifreddo, mousse, and inserts: It easily withstands the coldest temperatures of the blast chiller. The exceptional flexibility of the silicone allows for quick unmolding, preserving all the details of the fruit without the risk of breakage. - For baked preparations: It withstands the high temperatures of the oven, proving ideal for baking cakes or alternative soft bases. - Total safety and hygiene: The mold is completely free of toxic substances, certified BPA Free and PFAS Free. It does not alter flavors and is dishwasher safe to ensure infinite reuse (the plastic support must be washed by hand). Technical Data Sheet and Dimensions - Line: 3D Fruits - Silikomart Professional - Model: Apple, Cherry & Peach Kit (Single Portion) - Kit Contents: 1 Silicone Mold + 1 Rigid Plastic Support - Number of Cavities: 5 - Single Cavity Dimensions: Ø 60 mm | Height 55 mm - Single Cavity Volume: 115 ml - Total Mold Volume: 575 ml - Mold Thermal Resistance: From -60°C to +230°C - Compatibility (silicone mold only): Suitable for traditional oven, microwave, blast chiller, freezer and dishwasher.
