SOLUZIONI FOODSERVICE

Entirely handcrafted in Italy by the master craftsmen of Coltellerie Berti, the knife from the Convivio Nuovo collection represents a perfect combination of history, functionality, and formal elegance. Inspired by a famous Tuscan model from Scarperia from the 1930s, this set is designed for those who consider carving a true ritual of taste.

- Smooth High-Precision Blade: Unlike traditional serrated blades that fray and tear meat fibers, Berti's smooth, high-performance steel blade glides extremely smoothly. This allows it to retain the juices and flavors of steaks, T-bone steaks, fillets, and even delicate tuna or swordfish slices.
- Black methacrylate handle ensures excellent resistance, hygiene, and an easy grip.
- Perfect Ergonomics and Balance: Studied down to the smallest detail to ensure impeccable handling and precise cutting without tiring the hand, elevating the guest's experience.
- 100% Made in Italy Craftsmanship: Each piece embodies the centuries-old wisdom of Scarperia's cutlery tradition, a universal synonym for prestige and timeless quality.
