SOLUZIONI FOODSERVICE

Discover your new ally in the kitchen: the 33 cm Sanelli Tranciato Fork. Created for the most demanding chefs, this professional tool will surprise you with its quality, usability and reliability. The fork is made of sturdy stainless steel, a serious and reliable material, perfect for lasting over time and withstanding daily use in the kitchen. It is equipped with two convexly shaped teeth, total length 10 cm, with a width of 2.3 cm. This specific shape allows a safe and precise grip on the food, making it ideal both for turning dishes during cooking and for serving them directly at the table. But the excellence of this fork lies not only in the quality material with which it is made, but also in the handle. Of ergonomic design, it has been studied in detail to provide comfort and safety during use
