CODICE: **0122146905210**
MARCA: **KAI**

SOLUZIONI FOODSERVICE

Kai's N5000 series was created for professional use.

The scissors have a satin surface and a tension regulator device for easy adjustment.

BLADES

The blades are made of high carbon AUS6A stainless steel with a hardness of 56HRC which guarantees exceptional edge life and superior cutting efficiency

HANDLE

Ergonomically shaped, it is designed to ensure excellent balance in the cut.

Very comfortable thanks to the soft rubber grip.
