# SOLUZIONI FOODSERVICE

Kai's N5000 series was created for professional use.

The scissors have a satin surface and a tension regulator device for easy adjustment.

## BLADES

The blades are made of high carbon AUS6A stainless steel with a hardness of 56HRC which guarantees exceptional edge life and superior cutting efficiency

## HANDLE

Ergonomically shaped, it is designed to ensure excellent balance in the cut.

Very comfortable thanks to the soft rubber grip.
