

EXOGLASS SPOON cm.8x5x30

SOLUZIONI FOODSERVICE

Discover the pleasure of cooking with the 8x5x30 cm Exoglass Spoon, an exclusive product from the Matfer brand. This well-known manufacturer has always been a pioneer in the professional catering sector, passionately developing cutting-edge materials and technologies. This is exactly how Exoglass was born, a unique product exclusively manufactured by Matfer. The advantages of Exoglass are numerous: it is a compact, non-porous material, pleasant to the touch and with a secure grip. It has a rigidity that makes it non-deformable, but at the same time it is extremely light. This spoon boasts exceptional durability, is stainless, and significantly adapts to various washing methods, both in the dishwasher and by hand. The King of Ladles, as we like to call it, is multipurpose as it can be used both in the refrigerator and in the oven
