MARCA: **SILIKOMART**

SOLUZIONI FOODSERVICE

This silicone pot holder protects your hands from contact with hot plates, containers and pans up to 230°C. For repeated use, allow to cool between uses.

Flexible and non-slip, it ensures maximum stability and safety during use. Practical to use as a trivet or to unscrew the lids from jars.

Washable by hand or in the dishwasher.

Do not place in direct contact with heat sources (flames, plates and electric resistances) and never use in the presence of stains or holes.
