

CENTRIFUGA MANUALE DYNAMIC It.10

SOLUZIONI FOODSERVICE

Discover the Dynamic Manual Centrifuge, the indispensable tool in your kitchen. Designed to extract water from vegetables quickly and effectively, it respects the delicacy and taste of your vegetables. Made of sturdy plastic and designed to handle large volumes, it is perfect for preparing high-quality fresh salads. Extremely easy to clean, just remove the two internal baskets from the container for thorough washing. Remember not to put it in the dishwasher. Equipped with an antibacterial function, it complies with HACCP regulations, ensuring maximum hygienic safety. Impossible to leak water thanks to its 100% watertightness. The gear pin is made of stainless steel. Made in France, guarantee of quality and durability.
