

CENTRIFUGA MANUALE DYNAMIC It.20

vedi prodotto online

SOLUZIONI FOODSERVICE

The Dynamic 20 liter manual juicer is the essential accessory for the preparation of fresh and tasty salads. High performance tool, particularly suitable for processing large quantities thanks to its capacity. Made of resistant antibacterial plastic, it guarantees total respect for the raw material and safe washing. The interior is easily removable for thorough cleaning by hand with warm water and mild soap. The watertight seal prevents water leaks and the gear features a robust integrated stainless steel pin. Made in France, compliant with the HACCP standard. Not suitable for the dishwasher.
