SOLUZIONI FOODSERVICE

Equipped with a stainless steel slide bar, knife and jar wheel, this countertop can opener is your ideal ally in the kitchen. The structure, consisting of a head and crank in die-cast aluminum painted to resist corrosion, promises solidity and durability. Comfort ensured by the practical plastic handle. Suitable for large jars, it can open jars up to 55cm high. The support base (18x8 cm) is made of galvanized steel and already prepared for fixing, which can be done using screws or with the convenient clamp included. A tested, robust and Made in Germany product dedicated to cooking enthusiasts.
