

EGGS CUTTER IN ALUMINUM WITH STEEL WIRES cm.18x6,5x3

SOLUZIONI FOODSERVICE

Practical and innovative, this egg cutter transforms the preparation of your recipes into a fast and accurate operation. Thanks to its ergonomic design, you will be able to obtain six equal segments with a single gesture. The structure is made of sturdy aluminum while the wires, mounted individually, are made of stainless steel, guaranteeing a clean and precise cut. After use, you can easily clean it in the dishwasher. An essential accessory for those who love professional cooking.
