

ANTI-SCRATCH NYLON WHIP cm.27 RESISTANT UP TO 210°C

SOLUZIONI FOODSERVICE

Ideal for pastry chefs and passionate chefs, the scratch-resistant nylon whisk stands out for its extraordinary resistance. It can resist very high temperatures, up to 210°C, making it a perfect ally for sweet and savory preparations. Made of nylon, it is delicate on non-stick surfaces, avoiding damaging them. Finally, its practicality is guaranteed by the possibility of washing it in the dishwasher and sterilizing it without losing its properties. A professional choice for your kitchen.
