SOLUZIONI FOODSERVICE

DELTA work apron

- Made of particularly elastic Polyurethane
- Excellent wear resistance
- Smooth, easy to clean
- Does not harden
- Resistant to animal fats, blood products and routine maintenance
- Resistant to hydrochloric acid and 30% bleach at 40° chlorometric
- Protection against splashes
- Adjustable strap around the neck, back fastening and stainless steel spring hook.

MAINTENANCE

Cleaning is done by washing with water at 60 ° C. The addition of a neutral acid-free disinfectant, followed by rinsing with clean water. For drying the apron should be laid flat, do not tumble dry.

The apron must be stored dry.
