SOLUZIONI FOODSERVICE

**** RATIONAL PATENT ***

USE:

Multilayer plate with Trilax non-stick coating for double use.

The upper part has raised waves for grilling steaks, vegetables and fish, and having a raised edge, it allows the meat to aerate during cooking.

The back, being flat, allows optimal support and thermal transmission for frozen or fresh pizzas.

The TRILAX by Rational coating has surprising non-stick properties, promotes browning and resists heat and alkalinity.

MATERIAL:

Multilayered with TRILAX by Rational non-stick
