SOLUZIONI FOODSERVICE

This airtight bucket, made of sturdy high-density polyethylene, is the essential accessory for every professional chef. With a capacity of 10 litres, it is perfect for containing liquids without the risk of leaks, thanks to its airtight closure. It can withstand temperatures between +120° and -60°, giving you the flexibility to use it in any situation. Furthermore, its cleaning is very simple: it is in fact dishwasher safe. Supplied with lid, it is produced entirely in Italy, reflecting the highest quality standards.
