# SOLUZIONI FOODSERVICE

Make every operation in the kitchen easier with our white plastic funnel, an essential accessory for pouring liquids. Made of resistant polyethylene, it can be used in temperatures from  $-65^{\circ}$  to  $+100^{\circ}$  without risk. With a large upper diameter (33 cm), it will allow you to operate quickly and safely. Furthermore, ease of maintenance is guaranteed: you can easily wash it in the dishwasher. Handmade in Italy, it combines practicality and design in a single item for your professional kitchen.
