SOLUZIONI FOODSERVICE

Your secret to creating magnificent fruit and vegetable decorations is called Triangular Scavino E1. From Germany, an indispensable professional tool that turns your recipes into works of art. Made of durable stainless steel, this corer is ideal for making detailed angled shapes on squash, courgettes, carrots, potatoes, melons, watermelons and papayas. Its diameter of 0.7 cm allows you to make complex decorations with ease. Practical, ergonomic and dishwasher safe.
