SOLUZIONI FOODSERVICE

This pouring funnel is an essential accessory for your professional kitchen. Made of 100% stainless steel, it ensures resistance and longevity. Its upper diameter of 13 cm and the 4 cm outlet hole increase its practicality: transferring thick liquids or preparations with pieces, such as jams or pickles, will be child's play. Dedicated to those who love not only quality, but also efficiency in the kitchen. A perfect ally for sifting and draining with ease.
