SOLUZIONI FOODSERVICE

Raise the quality of your professional cooking with the Matfer Perforated Exoglass Spoon, an exclusive choice for the most demanding chefs and pastry chefs. Made of exoglass, a revolutionary material with exceptional characteristics: very light, rigid, non-deformable, extremely durable and rust-resistant. Thanks to its unique composition, it can be used in environments from -20° to $+250^{\circ}$, making it perfect for use in the dishwasher, refrigerator, microwave and oven. The ergonomic handle offers a great grip and you will feel the quality difference in your daily work. The exoglass ensures excellent heat diffusion, rapid cooling after use and easy cleaning. A precious ally for your non-stick kitchen.
