SOLUZIONI FOODSERVICE

Discover the Exoglass full spoon, an innovative product created by Matfer for kitchen professionals. Thanks to the use of exoglass, an exclusive plastic material, it stands out for its unique qualities: it is compact, non-porous, comfortable to grip and pleasant to the touch. Everything, without sacrificing durability and lightness. With a resistance capacity ranging from -20° to $+250^{\circ}$, it is not afraid of use in the oven, microwave or refrigerator and also resists impeccably in the dishwasher. This tool ensures effective heat diffusion and rapid post-use temperature reduction. Perfect for expert cooks and professional pastry chefs.
