SOLUZIONI FOODSERVICE

Discover the De Buyer manual corer, the essential accessory for innovative preparations in the kitchen! Made of resistant stainless steel and equipped with an ergonomic green polypropylene handle, it is perfected with a retractable blade to empty fruit and vegetables with ease, creating original small glasses to fill. The innovative graduated system allows you to adjust the digging depth, leaving a thin layer of food to give consistency to your dish. Resistant, hygienic and dishwasher safe, it is made in France, a symbol of quality and design.
