SOLUZIONI FOODSERVICE

Discover your perfect ally in the kitchen with the stainless steel mesh strainer with a diameter of 16cm. Designed to make the preparation of your recipes quicker and easier, it stands out for its thick and resistant texture, ideal for draining any type of food. The welding to the main structure is refined and long-lasting, a detail that makes the difference. You can use it in many ways thanks to its versatile design, suitable for everyday use and in professional contexts. Furthermore, the quality of the stainless steel guarantees its durability over time. Indispensable in a modern and quality-conscious kitchen.
