SOLUZIONI FOODSERVICE

This chinois with 18 cm stainless steel support hook is the ideal accessory for all chefs looking for resistance, durability and precision in draining their dishes. The sieve mesh is dense and robust, a guarantee of resistance over time, while the welding to the body stands out for its impeccable finish. The versatility of the tool allows different ways of use, from the most traditional to the most creative ones. The high quality segments are ideal for modern and fast cooking, which however pays attention to the quality of the food preparations. Its use is intuitive, the design is practical and functional. Indispensable in every professional kitchen.
