

STAINLESS STEEL LADLE WITH SPOUT cm.6x31 cl.6

SOLUZIONI FOODSERVICE

Our stainless steel ladle is the ideal companion for every kitchen professional. One of a kind, it looks like a sturdy piece, made entirely of Aisi-304 steel. This choice of materials gives the ladle unprecedented resistance, making it suitable for intensive use, non-deformable and designed to last a long time. The solid and sturdy handle is made of 3mm thick and 25cm long sheet steel to ensure a comfortable and safe grip. At the end, a practical hook allows you to hang the tool after use. The end ends with a spout designed to facilitate pouring, and the capacity of the ladle, equal to 6cl, is engraved on the handle for greater precision in dosing liquids. This ladle is the result of careful research, designed to satisfy
