SOLUZIONI FOODSERVICE

Discover the efficiency of De Buyer Manual Levator soli, perfect for giving a new look to your recipes. Easy to use, it allows you to empty fruit and vegetables, creating original little glasses to fill. Thanks to its retractable blade and graduated function, you can decide how much to dig while maintaining a thin layer for a natural container. Made of stainless steel, it features an ergonomic polypropylene handle, ensuring comfortable use. Resistant and practical, it is dishwasher safe and complies with food contact regulations. Completely produced in France.
