

MINI DIGITAL THERMOMETER WITH IMMERSION PROBE
-50 to +300 °C

vedi prodotto online

SOLUZIONI FOODSERVICE

Provides reliable results when you want to get accurate measurement readings.

This electronic thermometer can also be used to obtain food temperatures.

The probe can measure temperatures ranging from -50°C to 300°C ($-58 \sim 572^{\circ}\text{F}$).

Featuring large screen that quickly displays temperatures in Fahrenheit (F) or Celsius (C) with a single press.

TECHNICAL DATA:

- Measurement range: $-50.0 \sim 300^{\circ}\text{C}$; $-58.0 \sim 572^{\circ}\text{F}$
- Resolution: $0.1^{\circ}\text{C} / 0.1^{\circ}\text{F}$
- Data retention function
- Sampling time: 2 seconds
- Automatic shutdown after 15 minutes
- Low battery indication
- Battery: 1 x 1.5V button battery (included)
- Probe Size: Approx. 145mm*4mm
