SOLUZIONI FOODSERVICE

Designed for experienced and versatile cooking enthusiasts, the 2000ml Graduated Thermal Carafe is the ultimate tool for precisely measuring your liquids. Made of high quality polypropylene, suitable for food and designed for maximum hygiene, it can be washed in the dishwasher, thus ensuring impeccable cleaning. Practical and safe to use, the carafe has a comfortable handle and a spout for spill-free pouring. Its functional design includes a marked scale in both liters and milliliters, for precise measurement of each serving. Also perfect for use in the microwave for short periods, resisting temperatures up to +125°. Its professional performance, combined with the 'made in Germany' brand, make it a fundamental element in your kitchen.
