# SOLUZIONI FOODSERVICE

This white polypropylene funnel, with a diameter of 12cm, is an indispensable kitchen companion for every professional food lover. Made of high quality food grade material, this kitchen accessory is resistant to both high temperatures (+100°) and low temperatures (-20°). Its most common use is for pouring liquids, making the operation simple and mess-free. Furthermore, its maintenance is simple and quick: after use, you can easily wash the funnel in the dishwasher. Increase the efficiency of your kitchen with this handy tool!
