SOLUZIONI FOODSERVICE

Work with precision in your culinary preparations with our stainless steel pouring funnel, complete with a non-slip silicone backing for a hassle-free experience. Equipped with a single piston, it can precisely dose the quantity of product, thus maintaining the quality of your dishes stable. This tool is ideal not only for measuring sauces and mousses, but also for dealing with thicker substances such as caramel and gelatin. Its deep cone allows for natural and simple mixing. Furthermore, it is dishwasher safe and water resistant. Made in France, 100% stainless steel.
