SOLUZIONI FOODSERVICE

This refillable windproof gas lighter is the perfect accessory for every chef. With an easy ignition button and a reliable safety switch, it's the ideal utensil for stoking your kitchen flames. The presence of the gas refill valve on the bottom makes it easy to use and reuse. The flame is adjustable, allowing maximum flexibility. Designed to be robust and resistant, but at the same time light and easy to handle, it is produced in compliance with ISO 22702 standards and made with non-flammable materials. Note the safety measures: do not expose to temperatures above 50°, do not pierce or burn it, do not keep it on for more than 30 seconds and keep it away from clothing and face. Finally, we would like to remind you that it is not suitable for lighting cigarettes, cigars or pipes and must be kept out of the reach of children.
