

TAKAJE COLORED VACUUM PACKAGING MACHINE

SOLUZIONI FOODSERVICE

The only system that allows you to vacuum pack any glass jar with a metal lid. Thus you transform waste into a resource, significantly saving time and money and minimizing waste.

CHARACTERISTICS:

- Bodywork in ABS
- Voltage and Frequency: 220-240V / 50-60Hz
- Four different modes of operation
- Sealing bar (3 mm wide) with very high thermal resistance
- Easy and precise adjustment of the weld
- Maximum cleanliness of the shapes.
- Suction from containers integrated on the machine
- Removable tray for easy cleaning
- Standard equipment: 10 envelopes and 2 valves

Weight: 3.1kg

Dimensions: 36.5x18.5x11cm

Sealing bar length: 33 cm

Power Consumption: 200W

Maximum vacuum: 800 mbar

Vacuum pump flow rate: 16 l/min

Multiple packing: 3 pcs

Available in three colors

Vacuum chamber designed to facilitate bag insertion, reduce plastic waste and protect the machine from liquid aspiration
