# SOLUZIONI FOODSERVICE

With this sturdy silicone brush with plastic handle you can take your cooking experience to the next level. Designed with a width of 4cm and a length of 3cm, this versatile kitchen tool fits perfectly in your hand, allowing you to distribute icings and marinades with extreme precision. Its brushes are reinforced with fiberglass, a feature that makes them extraordinarily resistant and long-lasting. A further strong point of this kitchen brush is its handle equipped with a practical hole, ideal for easily hanging it after use. Designed to resist heat up to 220°C, this tool will allow you to face any kitchen challenge without any fear. Its silicone bristles are easily separable from the handle, a feature that greatly simplifies cleaning operations. But there's more: this brush is washable
